Year 6 Should the world be ashamed of slavery?

As mathematicians we will be working on becoming fluent, reasoning and answering increasingly difficult word problems about place value.

As historians and geographers, we will be investigating slavery in the Ancient Benin civilization , moving to exploring the trade triangle between Africa, America and Britain. We will then investigate modern day slavery.

As scientists we will be studying light and electricity – hopefully ending with a wand which light up!

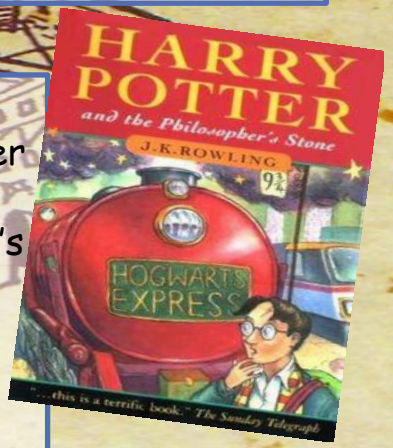
As language learners we will be studying French with Mrs. Jackson.
We will also learn about the Sikh religion with Mrs. Jackson.

As readers and writers, we will base our work around Harry Potter and the Philosopher's stone – particularly concentrating on characters – especially the house elves – who were enslaved by the wizarding community.
We will write character descriptions, spells, myths, letters and diaries.

We will also write geographical and historical accounts of slavery through the ages.

As Artists we will investigate pictures of house elves in the Harry Potter books, Willi Wamuti and Elisha Ongere. We will produce paintings based on these.

As musicians we will have singing lessons, every Friday, with Mrs. Artist.

As computer programmers we will study e-safety.


Class novel: Harry Potter and the Philosopher's stone, A Monster calls & Hansel and Gretel.
