

In mathematics we will consolidate our learning of calculation strategies, fractions and measures. We will also use our data handling skills to record and compare things like temperature and favorite foods.

As historians we will be looking at the cultures, customs and traditions of different countries in the Mediterranean. We will link this to what we have learned already this year.

As musicians we will continue learning new songs in vocal coaching.

As writers we will be learning about adventure and mystery stories and how to create a spooky atmosphere! We will also look at some humorous poetry and have a go at writing our own poems.

*Why do people visit the Mediterranean?
June 2017 - Class 3*

In science we will be looking at light and dark, investigating the question: *How far can you throw your shadow?*

As athletes we will be competing in different striking games such as rounders and cricket.

In RE we will be trying to answer the question; 'What do people believe in?'

As geographers we will be finding out why people choose to take holidays in the Mediterranean. We will locate Mediterranean countries on a map and study the different climate zones.

As language speakers we will continue to develop our skills in French. This will include experiencing a French day in school and continuing to work on short conversations in French discussing different days and months.
