

Dear parent/guardian,

Summer holiday activity and competition

We're encouraging our pupils to join Discovery Education's summer adventure and make their world bigger. They will explore the limits of outer space, the depths of the ocean and travel to the far flung corners of our amazing world.

Featuring spectacular video clips from Discovery channels like Animal Planet and Discovery Science, the summer adventure is intended to inspire curiosity.

Win a Discovery Education goody bag!

Children who participate are given the chance to win one of 10 goody bags, simply by watching a series of daily video clips and collecting the related fun facts along the way.

There are also additional activities hidden throughout the competition – helping children to get creative or explore the outdoors. *(some of these may require adult supervision)*

Learn more and play along: www.discoveryeducation.co.uk/mywb

Competition closes at 10pm on Sunday 10th September 2017.

If you do not have access to Discovery Education at home, you can use the following login details over the summer holidays. Username: student9692 Password: summer

Kind regards,

Neil Clarke
Curriculum Leader
