## Year 6 Football Festival

On Tuesday 12<sup>th</sup> September, class 6 had a football tournament at Foxhill playing field. We played against Shibden Head and Foxhill, everyone who played enjoyed it tremendously!

Although, we did not win we did not lose either (we drew first place with Shibden Head). Mr Sykes said everybody collaborated well and showed great sportsmanship.

Well done class 6!

Goal scorers: Owen - 6 Leah - 2 Adam - 2 Sophie - 1

## Open Morning for Reception Class

Reception Class welcomed visitors on Tuesday 26<sup>th</sup> September, for an open morning. As well as counting, reading, playing out and lots more activities, they also made chocolate crispy buns to sell and raise money for the Macmillan charity.

**By Ava Wilkinson (Year 3) & Jack Leng (Year 5)**

## Year 5 Football Festival

Once again Mr Sykes arranged a football tournament, this time it was for Year 5, and once again we drew with Shibden Head! Everyone enjoyed it; the tournament was hard but extremely good too! Finn said, "We all worked well together!"

## Macmillan Fundraising Event

On Friday 29<sup>th</sup> September the PTA organised a huge Cake Bake morning for school, this was to help raise as much money as possible for Macmillan Cancer Support. After all the hard work from four PTA volunteers and help from children in Year 6, a whopping £240 was raised!

Thank you for your kind donations of cakes, buns and biscuits, and also to those who gave up their spare time to run the event. We have helped to make a huge difference to people facing cancer!

**By Myles Cuthbert (Year 4)**

**If you have any spare time or ideas to raise funds for our school and would like to join the PTA, then please contact the office.**

## National Science Museum Trip

Year 5 visited the National Science Museum on Monday 2<sup>nd</sup> October. Alex said; "It was the most amazing time ever because we got to see Tim Peake's space craft that went to space and back! It was so much more interesting because we are learning about 'Space' in our science topic this term."

While there, we went to the *Gaming Room* and everyone agreed that this was good fun too, because we got to play the arcade games. We would definitely recommend a visit there if you are interested in space, you never know; you might learn more about space!
