

Sohaib Tanvir

My name is Sohaib Tanvir and I am currently the Director of Learning for Assessment, recording and reporting at Queensbury Academy. Although I started life as a pharmacist, whilst working for a charity that helped disengaged teenagers and young men, I very quickly started to appreciate the power of a good education. I, consequently completed my PGCE in Science/ Chemistry and became a teacher.

In my governor role, I hope to play a role in education and help plan the strategic direction of the school.

I consider it an honour to have been added to such a capable governing board as this will lead to better educational outcomes for the children.
