

Steve Norfolk

Hello. My name is Steve Norfolk and I am delighted to have been given the opportunity to join the school as a Local Authority Governor.

I live in Baildon and have a son of 14, and I am passionate about helping children to achieve their full potential and ensuring they have the best opportunities to succeed and grow into responsible and caring adults.

I work for the Home Office (UK Visas and Immigration) as a project and business change manager and have previously held various project and operational roles within government; I hope that my skills and experience will benefit both the school and pupils.

I am also a keen Bradford City fan and attend home games whenever possible.
