

Thursday 4th March 2021

Dear Parent/Carer

As you are aware, we reopen to **all** pupils on the 8th March 2021. During the partial closure of school a number of electronic devices were lent out to our families to ensure the children had appropriate access to their online education.

As school is opening fully and the children will resume their face-to-face teaching we are asking that these devices be returned to school.

If you borrowed a device from school please can it be returned to the school office at some point in the week commencing the 8th March. When the device is returned to the office you will be able to collect a receipt which will confirm we have received the device.

If there are any problems in returning the device please contact school to discuss. We want to thank you again for your support with the online learning at home and hope that you found the devices useful.

Kind Regards
Lucy Bailey
