Learning Challenge	Why were the Romans so powerful?	Why were Norman castles certainly not bouncy?	Who were the early lawmakers? (Tudors)	Why is Bradford such a cool place to live?		Why is the River Thames so important to London?
History	Know that people who lived in the past travelled differently and used different weapons	Appreciate that wars are often associated with invasion, conquering or religious differences	Recognise that the lives of wealthy people were very different from those of poor people	Communicate knowledge and understanding orally and in writing and offer points of view based upon what they have found out		Explain how a locality has changed over time
	Explain how events from the past have helped shape our lives			Recognise that people's way of life in the past was dictated by the work they did		
Geography	Plot the boundaries of the Roman Empire on a map of Europe	Explain why the Normans built so many castles (land use)	Suggest different ways that a locality could be changed and improved	Use appropriate symbols to represent different physical features on a map		Describe the main physical features of a well-known city
	Name the countries that make up the European Union			Explain why people are attracted to live in cities		
Science	Observe that some materials change state when they are heated and cooled. Measure or research the temperature at which this happens	Construct a simple series electrical circuit, identifying and naming its basic parts. Recognise some common conductors and insulators	Identify the different types of teeth in humans and their functions. Describe the basic parts of the digestive system in humans	Identify how sounds are made, associating them with something vibrating. Recognise that sounds get fainter the further away they travel	Recognise that living things can be grouped in a variety of ways. Use classification keys to help identify and name a variety of living things.
