

Governor Profile

Name: Claire Taylor

Type of Governor: Parent

Why I want to be a Governor at Russell Hall: I wanted to be a parent governor because I believe every child deserves to receive an excellent education accessible to their individual needs. I also look forward to working alongside other members of the governing board, with us all contributing our skill set to the best running of the school.

Background: I have worked in finance most of my adult life, but as a mum to four very different children with very different needs my main skill set is in special educational needs, and ensuring the needs of the children are met.

Skills and areas of interest: I have spent many years working with various professionals and have spent many hours working on courses to enable me to see past the behaviour of the child and fully understand the need. To understand that early life trauma/significant events can have a massive impact on children's ability to learn. That various diagnosis can present very differently from child to child.

Hobbies: I can most often be found either at the gym or at the ice rink- but this is only ferrying the children about! I have five dogs and love walking.

I also enjoy eating out and visiting my family up north whenever I can.
