

**Spring Term 2
Year 5**

Our significant people this half term will be: Christopher Columbus and Neil Armstrong.

As mathematicians, we will master fractions, decimals and percentages. We will try to improve our speed and fluency with times tables.

In E-safety lessons, we will continue to look at the appropriate use of technology.

As readers, we will read information texts about America. We will study biographies on Christopher Columbus and Neil Armstrong..

In art, we will be using photo and film.

As writers, we will uncover the book 'George's Secret Key to the Universe '. Based on the book, we will write a story.

In RE, we will ask the question: Should we forgive others?

As Geographers, we will locate the world's countries, using maps to focus on North America, concentrating on physical and human characteristics, countries, and major cities. We will plan a trip to North America.

As Scientists, we will study Earth and Space and we will describe the movement of spherical bodies in our solar system - the Earth, moon and other planets and how they relate.

As historians, we will research the history of America and find out who the original Americans were and why there are so many people from different nationalities in the USA.

In Design and Technology we will be making tasty spaghetti Bolognese.
